SKILLS

- Web Development
- Full-Stack Development
- Low Code Development
- Project Management
- Database Administration

TOOLS

- C#, C++
- HTML, CSS, JS
- SQL
- Python
- Java

LANGUAGES

- Afrikaans (Fluent)
- English (Fluent)

REFERENCE

Simba Zengeni
Lecturer at Belgium Campus
Email : zengeni.s@belgiumcampus.ac.za

ABOUT ME

I am a Software Engineering student at Belgium Campus, driven to design secure, reliable, and user-focused digital solutions. Skilled in C#, JavaScript, HTML, CSS, and SQL, I specialize in back-end architecture while exploring hardware systems. Creative, detail-oriented, and proactive, I thrive in both collaboration and independent problem-solving.

EDUCATION

National Senior Certificate 2019-2023
Bachelors Degree Admission
Marais Viljoen High School

Bachelor of Computing 2024-2027
Majoring in Software Engineering
Belgium Campus iTversity

PROJECTS

Belgium Campus Wild Watch Application 2025-2026
Microsoft Power Platform

- Collaborated with a team of 8 developers to build a streamlined, mobile-first application for wildlife incident reporting, improving campus safety.
- Developed front-end in Power Apps with automated workflows via Power Automate, integrated SharePoint Lists for data management, and Power BI dashboards for real-time insights.
- Implemented location-based reporting and AI-driven chatbot support, enabling faster responses, guided reporting, and enhanced student engagement.

WORK EXPERIENCE

Alberton Squash Club 2023-2024
Part Time - Bartender

- Provided bartending service during social league hours from 5-9pm, preparing and pouring beverages while managing customer orders and tabs.
- Handled billing processes using both traditional paper-based systems and modern computerized POS platforms.
- Delivered consistently strong customer service, fostering a welcoming atmosphere and ensuring repeat business.
